The scripts below belong to a sprite named Cat:

1. **Circle:** What should you do to make Cat say "Hello!"?

- A. Press the space key
 - B. Click the green flag
 - C. Press the down arrow
 - D. Click the sprite
-

2. **Circle** the Say block that will be run last.

3. The scripts below belong to a sprite. **Circle all** the scripts that run when you click the sprite.

When you click the **Green Flag**, the stage looks like this:

4a. **Circle** the script that ran for the butterfly.

when this sprite clicked
say [My name is Rover!]

when this sprite clicked
say [My name is Terry!]

when green flag clicked
say [My name is Rover!]

when green flag clicked
say [My name is Terry!]

4b. **Circle** the script that ran for the dog.

when this sprite clicked
say [My name is Rover!]

when this sprite clicked
say [My name is Terry!]

when green flag clicked
say [My name is Rover!]

when green flag clicked
say [My name is Terry!]

Compare the two scripts below:

when this sprite clicked
say [I am Ann's cat] for [2] secs
play sound [meow v] until done
move [10] steps

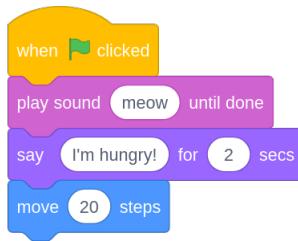

when this sprite clicked
say [I am Ann's cat] for [2] secs
move [10] steps
play sound [meow v] until done

5. **Circle** what is true:

- A. They do different actions.
- B. They do the same actions in a different order.
- C. There is no difference.

For question 6, please fill in the blanks below.

6. What will the sprite do when the green flag is clicked?

First, _____.

Next, _____.

Last, _____.

Question 7a and 7b ask about the script below:

7a. What do you do to make the script run?

- A. Click the green flag
- B. Click the sprite
- C. Press the space key

7b. What does the sprite do when the script runs?
